About State Health and Value Strategies

State Health and Value Strategies (SHVS) assists states in their efforts to transform health and health care by providing targeted technical assistance to state officials and agencies. The program is a grantee of the Robert Wood Johnson Foundation, led by staff at Princeton University’s School of Public and International Affairs. The program connects states with experts and peers to undertake health care transformation initiatives. By engaging state officials, the program provides lessons learned, highlights successful strategies, and brings together states with experts in the field. Learn more at www.shvs.org.

Webinar Presenter and Guests

Erin Taylor, Bailit Health, Presenter and Facilitator

Guest Panelists

1. Quyen Huynh, Health Equity, Social Justice & Strategy Manager, Washington Health Care Authority (HCA)
2. Kolynda Parker, Section Chief, Quality Improvement and Innovations, Louisiana Department of Health
3. Cheryl Roberts, Deputy of Programs and Operations, Virginia Department of Medical Assistance (DMAS)
Promoting Health Equity in Medicaid Managed Care: A Guide for States

• Provides states with actionable steps to develop and implement health equity strategies in managed care programs

• Includes process steps to guide health equity work focusing on
  – Internal agency commitments and changes necessary to initiate and sustain health equity work
  – Ways in which states can leverage Medicaid managed care programs
1) Health equity is a core, cross-cutting principle of Medicaid, and not a separate, standalone initiative.

2) Medicaid agencies assess and change operational practices to align with and promote equity goals.

3) Medicaid agencies leverage their managed care strategies to pursue health equity with contracted MCOs.
Section 1: Establishing Health Equity as a Core Principle

- Identifying health equity as core to the Medicaid program, embedded within it and not a separate, standalone initiative
  - Demonstrating leadership commitment
  - Defining health equity (and related terms)
  - Articulating health equity as a priority in the agency’s mission, strategies, core principles, and/or goals statements
Section 2: Changing Agency Practices and Operations

- Assessing and implementing changes necessary to translate health equity priorities into action and day-to-day practices and norms, including:
  - Internal staffing structure to promote health equity for example, an executive-level Medicaid position
  - A health equity assessment of policies (internal and those that impact the administration of the program), structure and operations
  - Measuring their progress toward health equity goals
  - Engaging staff
  - Collecting demographic information on enrollees to identify disparities and target interventions
PANELIST DISCUSSION
SECTION 3: LEVERAGING MEDICAID MANAGED CARE TO ADVANCE HEALTH EQUITY
Medicaid Managed Care Approaches

1. Performance Improvement Projects
2. Health Equity Reports
3. Procurement Process
4. Population Health Management
5. Provider Expectations
6. Performance Monitoring and Improvement Targets
7. Financial and Non-Financial Incentives
8. Enrollee Engagement
9. Engaging with Medicaid Leadership
## Medicaid Managed Care Approaches (cont’d)

<table>
<thead>
<tr>
<th>State Approach</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Performance Improvement Projects (PIP)</td>
<td>Require health plans to implement a PIP focused on health equity or identify an equity-focused PIP as an option on a menu.</td>
</tr>
<tr>
<td>2. Health Equity Reports</td>
<td>Require submission of a report focused solely on health equity to signal that it is a state priority and focus health plan attention on the topic. This can identify opportunities for improvement and action.</td>
</tr>
<tr>
<td>3. Procurement Process</td>
<td>Communicate health equity expectations of health plans and obtain commitments to advance equity through specific actions.</td>
</tr>
<tr>
<td>4. Population Health Management</td>
<td>Require integration of health equity in population health management strategies and interventions, e.g., by identifying specific interventions or care models shown to reduce disparities, specifying staffing and training requirements, and ensuring that health plans are monitoring programs using a health equity lens.</td>
</tr>
</tbody>
</table>
PANELIST DISCUSSION
### Medicaid Managed Care Approaches (cont’d)

<table>
<thead>
<tr>
<th>State Approach</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5. Provider Expectations</td>
<td>Establish requirements for or offer guidance to network providers around health equity, including quality improvement initiatives.</td>
</tr>
<tr>
<td>6. Performance Monitoring and Improvement Targets</td>
<td>Mandate that health plans stratify performance measures by population groups / demographic characteristics to identify disparities and their magnitude and / or use data to set improvement targets.</td>
</tr>
<tr>
<td>7. Financial and Non-financial Incentives</td>
<td>Develop / modify incentives to focus attention and action on health equity, e.g., through performance-based incentives aimed at reducing disparities or improving absolute performance rates for specific population groups.</td>
</tr>
<tr>
<td>8. Enrollee engagement</td>
<td>Require that health plans engage and empower enrollees in a meaningful and substantive way and monitor to ensure that enrollee feedback is sought to set and shape health equity priorities.</td>
</tr>
<tr>
<td>9. Medicaid / MCO Leadership Engagement</td>
<td>Establish formal and regular meetings with senior-level health plan officials to discuss progress in addressing health inequities and reducing disparities.</td>
</tr>
</tbody>
</table>
PANELIST DISCUSSION
Reminder: State Technical Assistance Opportunities

• States can request SHVS support for technical assistance (TA) with projects, including:
  – Session with an expert on a specific topic
  – Limited, well-defined TA engagement (spans a few months)

• Some states have used SHVS TA from Bailit Health to promote health equity as they draft and release new Medicaid managed care RFPs and model contracts.
Discussion

The slides and a recording of the webinar will be available at www.shvs.org after the webinar.
