To help states respond to the ongoing COVID-19 pandemic, the White House, U.S. Department of Health and Human Services (HHS), and Centers for Medicare & Medicaid Services (CMS) invoked their emergency powers to authorize temporary flexibilities in Medicaid and the Children's Health Insurance Program (CHIP). Congress’ legislative relief packages have similarly provided temporary federal support for state Medicaid programs, subject to certain conditions. The timeframes for these emergency measures are summarized below, including the effective dates and expiration timelines dictated by law or agency guidance.

The duration for many of these federal flexibilities is linked to the federal public health emergency (PHE) that HHS declared in response to COVID-19, which was in effect from January 27, 2020 until May 11, 2023. HHS first announced the PHE’s May 11 end date in a January 30 Statement of Administration Policy, thereby fulfilling the administration’s promise that states would receive at least 60 days’ notice prior to termination of the PHE, and subsequently confirmed that the PHE would not be renewed in a statement released on May 11.

Notably, the recently enacted Consolidated Appropriations Act, 2023 (CAA) decoupled some key federal flexibilities from the COVID-19 PHE—mainly the Medicaid continuous coverage requirement (instead establishing a statutory end date of March 31, 2023) and the related enhanced Federal Medicaid Assistance Percentage (FMAP)—by amending the Families First Coronavirus Response Act (FFCRA) section 6008. As a result, states are currently unwinding the continuous coverage requirement, and had the option to initiate renewals as early as February 2023, for terminations of Medicaid enrollment beginning no earlier than April 2023. While the CAA provided certainty on timing for the end of continuous coverage guarantee and stability of enhanced federal funding to support unwinding, it also required additional action from states to ensure they are able to meet prescribed guardrails. Many states are sequencing first the significant bolus of work related to addressing pending eligibility and enrollment actions (see Figure 1 below), and then directing their efforts to scaling back or sustaining temporary flexibilities (see Table 1 below).

The Figure and Table in this product link to relevant CMS guidance advising states about the expected timelines for unwinding various flexibilities, including: “State Health Official” letters (SHOs) issued on December 22, 2020 (SHO 20-004), August 13, 2021 (SHO 21-002), March 3, 2022 (SHO 22-001), and January 27, 2023 (SHO 23-002); the January 5, 2023 CMCS Informational Bulletin, and various other transition tools, templates, and summaries. For additional discussion of eligibility and coverage issues during the unwinding period, see State Health & Value Strategies’ (SHVS’) Resources for States on Unwinding the Medicaid Continuous Coverage Requirement.

This document has been updated to reflect the expiration of the PHE at the end of the day on May 11, 2023 and related guidance from CMS regarding the unwinding of certain Medicaid flexibilities.

</table>

**Continuous Coverage/Redetermination:**
- **End of the Medicaid continuous coverage requirement (3/31/2023)**
- States may restart Medicaid redetermination process as early as 2/1/2023 for terminations beginning 4/1/2023:
  - 12 months to initiate and 14 months to complete all post-enrollment verifications, redeterminations, and renewals

**eMAP Phase-Out/Conditions:**
- 6.2% Medicaid eFMAP
- 4.34% CHIP eFMAP
- 5.0% Medicaid eFMAP
- 3.5% CHIP eFMAP
- 2.5% Medicaid eFMAP
- 1.75% CHIP eFMAP
- 1.5% Medicaid eFMAP
- 1.05% CHIP eFMAP
- FFCRA eFMAP conditions until 3/31
- CAA conditions on eFMAP in effect from 4/1/2023 – 12/31/2023

**Unwinding Reporting:**
- Renewal Redistribution Plan and Systems Readiness Artifacts due 2/1/2023 for states initiating renewals in February, or 2/15 for after
- Baseline Unwinding Data Report due 8th day of the month in which renewals begin (2/8/2023, 3/8/2023, or 4/8/2023);
- Monthly Unwinding Data Report due to CMS the 8th day of each month thereafter through 6/30/2024
- CAA monthly reporting requirements in effect 4/1/2023 – 6/30/2024

**Monitoring/Enforcement:**
- States subject to corrective action/other penalties for failure to comply with reporting requirements or any “federal requirements applicable to eligibility redeterminations” from 4/1/2023 – 6/30/2024
- States subject to regular FMAP reduction for failure to report required information from 7/1/2023 – 6/30/2024

**Figure 1 Notes**
- **The Medicaid continuous coverage requirement ended on March 31, 2023.** States were permitted to restart the Medicaid redetermination process as early as February 1, 2023 for terminations beginning April 1, 2023; states have 12 months to initiate and 14 months to complete all post-enrollment verifications, redeterminations, and renewals.
verifications, redeterminations, and renewals. [See 42 CFR § 433.400, as added by CMS’s November 2, 2020 Interim Final Rule (IFR)\(^2\), CMS SHO 20-004, SHO 21-002, SHO 22-001, CMS SHO 23-002, and CMCS Informational Bulletin.]

- Beginning April 1, 2023, the enhanced FMAP started declining quarterly over a nine-month period, with the increased FMAP expiring December 31, 2023.\(^3\) (See CMS SHO 20-004, CMS SHO 23-002, and CMCS Informational Bulletin.)
- The maintenance of effort (MOE) requirement—including required coverage with no cost sharing of COVID-19 tests, treatments, and vaccines—continues to apply until the enhanced FMAP expires on December 31, 2023. (See CMS SHO 20-004, CMCS Informational Bulletin, and CMS November 2, 2020 IFR.)
- See this SHVS expert perspective for more information on the CAA conditions, reporting requirements, and federal enforcement mechanisms. Also see this SHVS expert perspective that reviews additional detail and operational expectations of states during unwinding as laid out in CMS guidance.

2. On September 23, 2022, CMS [reopened](#) the comment period for this rule and solicited comment on whether the rule should be repealed.
3. The enhanced FMAP schedule is as follows: 6.2% (start of the PHE through 3/31/23); 5.0% (4/1/23 through 6/30/23); 2.5% (7/1/23 through 9/30/23); 1.5% (10/1/23 – 12/31/23). The FFCRA increase in the [CHIP matching rate](#) is also declining.
4. CMS’s Medicaid/CHIP FAQ clarifies that this coverage requirement applies to COVID-19 tests, treatments, and vaccines that receive an FDA Emergency Use Authorization (EUA), as well as those will full FDA approval. For additional discussion of these coverage requirements, see SHVS’ [Medicaid and CHIP Coverage of COVID-19 Vaccine and Treatment: A Roadmap for State Action During and After the Public Health Emergency](#).
6. Although the President had [initially declared](#) that the National Emergency Act declaration would remain in effect through May 11, 2023, along with the PHE and the Stafford Act declarations, the NEA declaration was terminated on April 10, 2023 with the President’s signature of [H.J.Res.7 (Public Law No. 118-3)](#). However, CMS has [confirmed](#) that the termination of the National Emergency Declaration does not impact the planned May 11 termination of the PHE, any associated PHE unwinding plans, or any existing 1135 waivers.
7. HHS invoked the 1135 waiver authority on [March 13, 2020](#), with an effective date of March 1, 2020. Thus, all of the 1135 waivers that have since been issued by HHS and CMS have retroactive effective dates to March 1, 2020 unless otherwise specified.
8. CMS’s Medicaid/CHIP FAQ states that 1135 waivers last until the end of the PHE. That guidance appears inconsistent with the text of section 1135(e) in two respects, however. First, section 1135(e) provides that emergency waivers can generally be extended up until the termination of either the PHE or the presidential emergency declaration (whichever comes first). Applicable presidential emergency declarations can be made under the NEA or the Stafford Act; currently, both types of declarations are in effect nationwide. Section 1135(e) also requires that HHS renew the 1135 waiver authority at least every 60 days. To date, HHS has not issued any express renewal of the 1135 waiver authority.
9. For example, CMS had terminated several 1135 waivers pertaining to long-term care facilities, as described in an April 7, 2022 [memorandum](#), the latest version of CMS’s [1135 Blanket Waivers](#) document, and CMS’s May 1, 2023 [memorandum](#).
For example, many states received 1135 waivers related to provider enrollment in Medicaid, including waivers allowing for delays in provider revalidation and permitting provisional enrollment of providers who were already enrolled with Medicare or with another state’s Medicaid program. CMS has authorized a six-month grace period for these flexibilities following the end of the PHE, as described in SHO 20-004.

Typically, Medicaid SPAs may be effective no earlier than the first day of the quarter in which the SPA was submitted. With respect to Medicaid disaster relief SPAs, CMS will grant 1135 waivers that allow Medicaid SPAs to take effect before the start of the quarter in which the SPA was submitted (but no earlier than the start of the PHE).

CMS has clarified that, although it will not approve any disaster relief SPAs submitted after April 10, 2023 (the date the NEA national emergency declaration was terminated), CMS may still approve disaster relief SPAs that were submitted before that date.

According to CMS’s CHIP disaster relief SPA example, states may activate their disaster relief scenarios in response to a disaster declared by the “Governor or FEMA.” CMS’s Medicaid/CHIP FAQ states that CHIP disaster relief SPAs may also be activated in response to the COVID-19 PHE. In general, CHIP SPAs may have retroactive effect as far back as the beginning of the fiscal year in which the SPA was submitted, including SPAs that modify the state’s disaster relief scenarios. For that reason, CMS’s Medicaid/CHIP FAQ indicates that section 1135 authority is not needed to modify the submission date for SPAs that are submitted by the end of the fiscal year; presumably, however, CMS could grant an 1135 waiver to extend the retroactive date of a CHIP SPA into the prior fiscal year if needed, similar to CMS’s use of 1135 waivers to permit Medicaid SPAs to have a retroactive effective date in a previous quarter.

Section 9817 provided a 10 percentage point FMAP increase for state Medicaid expenditures for home and community-based services (HCBS) between April 1, 2021 and March 31, 2022. CMS SHO 23-002 directs states to retain temporary changes to HCBS eligibility, services, and payment rates in accordance with the relevant authorities without risk of penalty by CMS.
